

## Stop Mold & Other Microbial Issues *before they Appear*

The PureSpace™ process is a revolutionary system developed by Global Prevention Services® to **prevent** and **remediate** mold in homes, multi-tenant structures, commercial structures and all other types of buildings and spaces.

The safe, **green** PureSpace™ process changes the game by removing builder and landlord risks while providing peace of mind for homebuilders, property owners, tenants and homeowners. The system works and is proven, problems are avoided or quickly solved, builders' reputations are safeguarded, even enhanced and buyers receive value and protection.

- **Fast & Effective**
- **Affordable & Fully Guaranteed**
- **Serves New & Existing Construction**
  - **Preferred Choice of Builders**
  - **Tested to ASTM Standards**
