

# AEROSOLS

## 2K Epoxy eCoat

Patented WISE 2K Technology

**WISE 2K** is a patented 2-component aerosol paint technology that provides unlimited pot life. Both the WISE 2K epoxy and the polyurethane technologies contain a deactivated hardener and resin in a single compartment can, eliminating the need for activation or mixing.

Its revolutionary packaging activates the hardener only when spraying providing **unlimited pot life** and no product waste.

**NO MIXING.  
NO ACTIVATION.**

**JUST SHAKE  
& SPRAY.**

### Coverage

27 Feet/Can

### Coats

2 coats - 1 light then medium

### Dry Time

30- 60 minutes based on ambient temperature

### Finish

Can be coated over with seam sealer, body filler, basecoat, or urethane primer

### Flash Time

5 minutes

- Provides OEM factory color match
- DTM steel and aluminum
- **Unlimited pot life** with no product waste
- Provides superior chemical, corrosion, and UV resistance
- Requires no primer or clear coat
- Can be used with acrylic or laquer based solvent paints
- Can be applied to most OEM plastics
- Available in 10 OEM colors

## 2K DTS TRIM

**4PRO 2K Epoxy DTS Trim** High-coverage professional acrylic coating designed for use on OEM trim parts, can be used on most surfaces including vinyl and metal. Durable finish with great adhesion and avoids runs.

- 239005-4PRO** DTS Trim Black Gloss
- 239005S-4PRO** DTS Trim Black Satin
- 239005M-4PRO** DTS Trim Black Matte

## CLEAR COAT

**4PRO 2K Polyurethane Clear Coat** forms a strong and extremely durable crystal clear chip, chemical and UV resistant film. It can be applied over solvent or waterborne base coats. Revolutionary Wise 2K<sup>®</sup> technology delivers 2K OEM performance without the worry about premature hardening in the can. Features superior gloss retention and quick chemical resistance. High quality blendability and quality spray and flow.

- 2200-4PRO** Polyurethane Clear Coat

## WISE 2K Technology

**WISE 2K is a patented 2-component aerosol paint technology** that provides unlimited pot life. Both the WISE 2K epoxy and the polyurethane technologies contain a deactivated hardener and resin in a single compartment can, eliminating the need for activation or mixing.

- 2K Resin
- Un-activated Resin Hardener

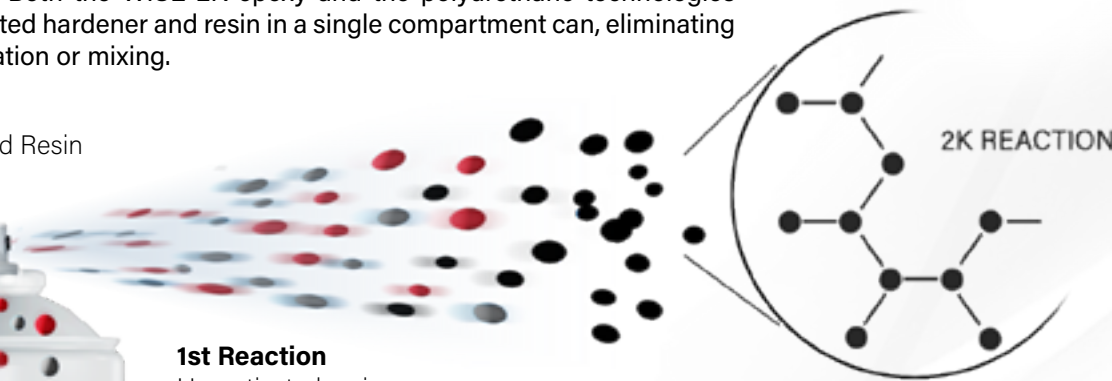

### 1st Reaction

Un-activated resin hardener & 2K Resin react

### 2nd Reaction

Activated Hardener & 2K Resin Crosslink

**Hardener only activates once sprayed**, not inside the can.

**The curing process is crucial to achieving best results**  
**Shake the can** for no less than 2-3 minutes upside down.

**Apply 2 coats** - 1 light/medium coat with 5 minute minimum flash, then medium/wet coat. Looking for coverage not product build

**Invert can and clear nozzle** thoroughly when finished
