Net Contents: 16 fluid ounces

AND REMEMBER TO **ALWAYS RESPECT THE OUTDOORS**  
FOR FUTURE GENERATIONS

**SNiPER II O.D.O.R Elite®** *eliminates odors at the source* – removing the smell of fish, seafood, camp fire smoke and spoiled meat from clothing, gear, ice chests and refrigerators/freezers, as well as from live wells or boat compartments.

*For removal of odors in carpets of trucks/boats* spray SNiPER II liberally on entire cleaned area, ensuring that thorough wetness is achieved, then let dry. Always Check for color fastness prior.

**SNiPER II** *removes odor from your hunting dogs as well.* Simply spray a wet application over the dogs coat and rub in. A second application may be necessary if the odor is very strong.

**SNiPER II** *is a mild and environmentally friendly product* that is great for cleaning dirt, fish slime, and even your hands without ever damaging or fading your surfaces.

*For Disinfection:* Spray SNiPER II at full strength, wetting surfaces thoroughly. Allow surfaces to remain wet for 5 min for amazing protection against bacteria, including: **Staph and Salmonella**. Allow surfaces to remain wet for 10 minutes for virus inactivation of **Influenza and Canine Parvovirus**.

*Also, highly effective for cleaning and disinfection of hard non-porous surfaces such as glass, plastic, chrome, stainless steel, sinks, hard surface cleaning tables, ice chests,*
