Maison Fine Homes & Interior Design has created a series of signature floor plans designed to inspire you.

Each of our plans feature the best of curb appeal, functionality and natural light. Our homes have been carefully planned with distinct entry, living and sleeping spaces, large kitchens and dining areas, beautiful sight lines, utility zones which include storage, and the flexibility to re-purpose rooms as your needs change.

We understand that designing a home is extremely personal, so each of our signature plans is really just a starting point to help you discover what you love. We are able to work with a plan and tweak it just a bit so that it's the perfect fit for you and your family, or combine design elements from several of our plans to create a completely custom space.

## MEET GRAY.

This 2455 sq ft two storey is based on the concept of beautiful rooms that flow together to form a beautiful home. The main floor features a grand foyer, 19' ceilings in the great room, a two-sided fireplace linking the great room and den, and a light-filled kitchen and dining space. Gray's master suite runs across the back of the house creating the feeling of being in a luxury hotel. The upstairs design is flexible to add a fourth bedroom, either by re-locating the laundry, or using the open to below space.
