

You are a Food and Beverage Professional. Now, please, close your eyes, and imagine - being able to create any table arrangement for any event - at the drop of a hat. Be spontaneous, daring, creative - with the sizes and shapes of the tables, with the table heights, with the accessories. The type of event doesn't matter. You will be ready.

Imagine yourself using a palette of your own design; tables that are rugged, yet so elegant. You sketch out a layout and hand it to your assistants. They quickly gather what you need; carts laden with tabletops in every shape and size, bases in every height and style. No linens to place or clean up, no elaborate strategy to knock it down - it's effortless.

You want to create memorable and innovative events. We want to make your job easy - with a banquet presentation system that makes your events a pleasure for your guests to enjoy and for your staff to produce. It's evolutionary.

It's the Evolution Banquet Presentation System, tabletops and bases that are interchangeable, crafted of materials that are selected for durability and beauty, designed for speed and flexibility.

Now... open your eyes and build your Evolution Banquet Presentation System to your personal specifications.

The wait is over.
It's time to Evolve.

The Evolution Banquet Presentation System

Tabletops and Bases

Select the tabletop shapes that work for you and match them up to the bases that work with them. Base requirements are listed beneath each shape. Some shapes may be ordered to accept one of two different bases or ordered to accept both.

Tabletop Surface Options

Fleckstone: Lion's Wood's Proprietary Tabletop Finish

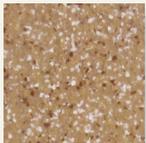

Brownstone

Granite

Fleckstone:

You may choose any of these four colors, or create your own at no additional cost. Simply send an image of the basis of design and our staff will create a color-blend for your approval.

You may choose any laminate by these three manufacturers, or you may specify any plastic laminate made, by any manufacturer. Prices may vary.

Tabletop Edge Style Options

Self-Edge

On Fleckstone Tabletop

Stainless Steel Edge

Available on Lion's Stone and plastic laminate tabletops

Wood Edge with Bumper

Available on Lion's Stone and plastic laminate tabletops

How The Evolution System Works

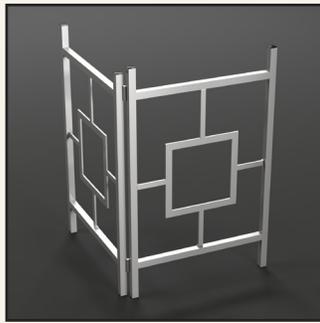

Mix and match different height bases with the tabletops of your choice to create combinations that work together for different functions. Base options for each tabletop shape are listed in the Tabletop Shape section above. Base styles and heights are shown on the next page. Select your bases and tabletops. You store and transport it all on Evolution Carts. We have two sizes of carts to choose from to suit your needs. Select the cart to match the quantity of tables you have and to fit the narrowest door frames on your property. *(See back page)*

STORAGE CART

The Evolution Cart for
Bases & Tabletops

The Evolution Cart
Holds both bases and
tops. We offer carts
in two widths, 30" W
or 36" W, both are 93"
long . Please check your
property door sizes
for clearance before
ordering.

CONNECTOR CLIP

Underside of an
Evolution Table with
Stainless Steel Edge

The Evolution Clip
Our patented connector clip makes it
all work. The bases and tabletops are
assembled to each other every time
you set them up - and no tools are
required. Our clip, recessed into the
tabletop, grips the top of the base,
and is easily disengaged for storage.

VERSATILE • DURABLE • PORTABLE
