KNAPHEIDE KUV BODIES

Working out of a Knapheide KUV keeps you organized and productive. Large perimeter bins are easy to access and keep your parts and tools separated into easy-to-manage spaces.

The Knapheide KUV is available in multiple heights and lengths for different applications. It is designed to increase productivity and efficiency through better organization of parts and equipment for specialty contractors, including plumbers, HVACR technicians, electricians, and more.

No more looking for what you need — just grab and go!

*Body may be shown
with optional features

Visit knapheide.com/quote and fill out the form to receive a quote and additional product information.

STANDARD FEATURES

- A** Double panel rear cargo doors lock and seal into the body frame. These 20-gauge galvanized steel doors have nitrogen gas struts and slam latches.
- B** Two conduit chutes to transport copper pipes, PVC, and conduit
- C** Power locks on rear cargo doors and side compartment doors offer enhanced operator convenience. System includes (2) key fobs. (Conduit chute doors do not have power locks.)
- D** Rear vertical compartment contains (1) 250-lb. capacity adjustable divider shelf
- E** Vertical compartment doors employ double-spring over-center retainers for elimination of involuntary swing
- F** Horizontal compartment contains (1) adjustable divider shelf to hold up to 250 lb. (passenger side only)
- G** Neoprene door seals protect compartments from the weather
- H** Front vertical compartments contain (2) 250-lb. capacity adjustable divider shelves
- I** Continuous stainless steel hinges are pry-proof and corrosion-resistant
- J** Automotive-quality, rotary-style latches make opening and closing easy
- K** Spacious cargo storage area with corrugated steel floor for transporting drywall, larger tools, water heaters, and oversized items
- L** Refined ABS partition is equipped with a sliding cab access door and window. The door's slam latch can be locked from the cab and secured in either an open or closed position.
- M** Two interior LED dome lights in cargo area with light switch inside the cargo doors
- N** Electrodeposition prime-paint system provides superior corrosion resistance
- O** Flat panel space provides rolling billboard to promote business
- P** Upgraded surface mount lighting system features LED S/T/T and B/U, LED strobe option* with (8) selectable patterns, and built-in reflectivity for additional safety**
*Additional wire harness required for strobe lights
 **Covered under 3-year limited warranty

Other features not shown:

- All compartments can be locked independently for maximum security
- Aluminum fuel fill
- Grab handle (rear right)

// CARGO AREA AND CONDUIT CHUTE CAPACITY

- 10' in 129" bodies

// AERODYNAMIC WIND DEFLECTOR

- Mounted on body above cab
- Standard on KUV129SH-RP

COMMITMENT TO CORROSION RESISTANCE

Corrosion won't be a concern when you buy quality Knapheide products. To give you the best corrosion protection, we utilize a state-of-the-art, custom-designed, 12-step, SST cathodic electrodeposition finishing system, called "E-Coat."

It bonds prime paint to steel by an electroplating process to give you a superior coat of primer, resulting in better corrosion protection compared to spraying methods.

This system allows us to create products with the highest level of corrosion resistance available.

NEVER SETTLE

If you are going to be a leader, it takes more than building a high-quality product. It means never being totally satisfied with that product, no matter how high quality it may be. It requires constant vigilance and a willingness to take a chance on something new. And it means exceeding expectations every time. As the industry changes, one thing never will—our commitment to making customers like you as productive and efficient as possible. We know you don't settle, and we don't either. That's why we want you never to settle for anything less than Knapheide on the back of your truck.

Knapheide. Never settle.
