

DAVID MUCKENTHALER

Vice President & General Manager,
Defense Mission Systems

As the Vice President & General Manager of Defense Missions Systems at Peraton, David has executive responsibility for a \$1B business with 300 contracts and over 3,000 employees across the US Department of Defense, delivering cutting-edge application & system development, mission operations support, and Enterprise IT to the Air Force, Army, Navy, DCSA and Combatant Commands.

Previously, as the Vice President of Finance for the Defense Missions and Health Solutions Sector, David was responsible for financial management, planning and budget allocation for an organization of over 7,000 employees and 500 contracts supporting our DoD, 4th Estate and Health customers. Additionally, he was responsible for financial oversight and leadership of sector investments to enable our mission partners to modernize systems, and help fortify the warfighter.

Prior to joining Peraton, David was the Corporate leader of Pricing & Estimating for Northrop Grumman Corporation and held multiple financial management leadership roles across the Information Systems, Cyber, Advanced Research and Development, and Mission Systems segments of the company.

He received a Bachelor of Economics from California State Northridge.
