When MicroRid is used correctly on environmental, inanimate, hard, non-porous surfaces at 2 ounces per gallon of water, it exhibits effective virucidal activity against Human Coronavirus (ATCC VR-740, Strain 229E), SARS Associated Coronavirus, Canine Coronavirus, Feline Coronavirus and other similar viruses. MicroRid is approved for the “disinfecting of similar viruses and can be used to disinfect SARS-CoV-2, and the cause of COVID-19.”

**MicroRid** kills Pandemic 2009 H1N1 Influenza A virus formerly called swine flu. This product for use in institutional kitchens and bathrooms, restaurants, bars, fast food operations, food storage areas, motels and hotels, hospitals, nursing homes, medical and dental offices and clinics, operating rooms, isolation wards, and medical research facilities.

Read and understand the Safety Data Sheet (SDS) when using this product. When MicroRid is used correctly on environmental, inanimate, hard, non-porous surfaces at 2 ounces per gallon of water, it exhibits effective virucidal activity against **Human Coronavirus** (ATCC VR-740, Strain 229E), **SARS Associated Coronavirus**, **Canine Coronavirus**, **Feline Coronavirus** and other similar viruses. MicroRid is approved for the “disinfecting of similar viruses and can be used to disinfect SARS-CoV-2, and the cause of COVID-19.”

**APPLICATION** - **MicroRid** may be applied by a variety of simple techniques. It may be applied manually with a spray bottle or garden sprayer and may be applied mechanically with an airless sprayer or fogger. If spraying on any painted or dyed surfaces or materials, test for color fastness in a small inconspicuous area before using this product to insure satisfactory results.

**DISINFECTION** - To disinfect inanimate, hard, non-porous surfaces add 2 ounces of this product per gallon of water. Apply solution with a mop, cloth, sponge, hand pump trigger sprayer or low pressure coarse sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes, then remove excess liquid. For heavily soiled areas, a pre-cleaning step is required. Prepare a fresh solution for each use.

**COVERAGE RATES** - will vary. To use, mix 2 ounces of product per gallon of water. One gallon of **MicroRid** makes up to 64 gallons of disinfectant cleaner.
